Closure Plan for T 24 Tanks in Building 887

James K. Hartman, Assistant Manager for Site Support, RFFO

The Department of Energy (DOE) Environmental Restoration (ER) has received a letter, (see Attachment) dated March 7, 1995, from the Colorado Department of Public Health and Environment (CDPHE) regarding the T 24 tanks used by Site Support (SS) in Building 887. The CDPHE requests that DOE submit a closure plan for those tanks within 75 days of receipt of their letter. This closure plan is associated with the 90 day status as was granted by CDPHE at Site Support's request. The closure plan is not part of the requirements of the Interagency Agreement. We believe that your organization, as the user of the tanks in question, should take responsibility for preparation of the closure plans for active RCRA units.

Gary Huffman of your staff has been contacted regarding this issue. If you have any questions regarding the need and requirements of the closure plan, please contact Ravi Batra of my staff at extension 9664.

Jessie Roberson
Jessie Roberson
Assistant Manager for
Environmental Restoration
